09-07-14 - Feet to the Fire: Dr. Richard Alan Miller Sept 7th 2014 -

https://www.youtube.com/watch?v=c4dk8NO_1HI

Published on Sep 21, 2014 - Dr. Richard Alan Miller returned to F2F for an 2nd live, stream-of-consciousness interview Sept 7th 2014.

Dr. Richard Alan Miller is a pioneer in the annals of metaphysical and paranormal exploration. Miller began working in the "X-Files" world of Navy Intel (Seal Corp. and then MRU) in the late 60s. His public collaborations and research continue.

As an original black ops team-member, Miller's research in the field of paranormal began as a graduate physicist working 11 years with Navy Intel (Anesthesiology). During this period numerous foundational papers, including "A Holographic Concept of Reality" and "Embryonic Holography" were written.

His past and current writings and presentations reveal a depth of knowledge and practical experience in three major fields; Alternative Agriculture, New Age Physics, and Metaphysics.

Miller now writes for Nexus magazine and is a preferred guest on internet radio. He is re-emerging at a critical time in humanities evolution where metaphysics and practical survival converge.

06-08-14 - **Dr RAM#4: Changing The Movie** : Away from Endless War -
<https://www.youtube.com/watch?v=5YQg2ahW46Y>

- Published on Jun 8, 2014
 -
 - After a 1 minute Excerpt from Star Trek... Welcome back to GuyFox Channel, and our ongoing conversations with Dr Richard Alan Miller. This talk one took place on June 8th, and was a voyage into some dark places about the possible future of humankind. But it is not without hope, and ideas of how to avoid the worst that may be coming our way.
 - NOTES:
 - + NASA, the future of war :
 - + The transhuman agenda is turning us into warrior slaves... or eliminating us
 - + We need to ask the right questions: What to do with those who cannot become Superhuman, is a dark question, and not the right one to ask
 - + Aliens are here and they are hiding inside us, IN OUR DNA
 - + The battle for our future - and the battle to stay alive - is inside us
 - + We need the right intentions ("we are responsible for our own thoughts"), and to set the right example for the young, who we will leave behind to fix the world
 - + Good water is maybe more important than good food
 - + Water, especially EZ (Exclusion Zone) Water can receive and hold our intentions
 - ==
 - Near the beginning of the conversation, Dr Miller refers to a presentation done for NASA and some alphabet agencies. I was initially reluctant to go down this path, since it had seemed very dark, and I was unprepared. By the end, I was glad I had done so. Dr Miller, as usual provided a fresh perspective that allows us to see a different path. We can break the pattern of endless war, and constant fear, by finding the courage to look inside ourselves for new questions, new answers and all-important positive intentions. We need to seek a greater appreciation of the importance of Water, the Elixir of Life that swims inside us, and without whose magical properties we would not be God's chosen creatures... of precious imagination, and positive emotion.

Spirituality, reincarnation, mushrooms, multi-dimensional makeup of reality, the holographic universe, the real battle for earth though infected/altered genes, and much much more. Dr. Richard Alan Miller is a pioneer in the annals of metaphysical and paranormal exploration. Miller began working in the "X-Files" world of Navy Intel (Seal Corp. and then MRU) in the late 60s. His public collaborations and research continue.

As an original black ops team-member, Miller's research in the field of paranormal began as a graduate physicist working 11 years with Navy Intel (Anesthesiology). During this period numerous foundational papers, including "A Holographic Concept of Reality" and "Embryonic Holography" were written.

His past and current writings and presentations reveal a depth of knowledge and practical experience in three major fields; Alternative Agriculture, New Age Physics, and Metaphysics.

Miller now writes for Nexus magazine and is a preferred guest on internet radio. He is re-emerging at a critical time in humanities evolution where metaphysics and practical survival converge.

Matthew 13:51/52 - *Then He said to them, "Therefore every scribe instructed concerning the kingdom of heaven is like a householder who brings out of his treasure things new and old."*

Best Answer: A scribe is someone who is a good writer, particularly a writer of spiritual matters who should have both the old and the new to present to their potential audience.

Old might be Old Testament prophecies and historical parallels and proverbs from Solomon and psalms from David and the Torah (the first 5 books of the Bible).

New might include information of the real gospel of the real kingdom as delivered by Christ and re-stated by the apostles and information from the book of Revelation showing that evil loses.

Uploaded on Feb 13, 2016 - Feet to the Fire Radio with guest Dr. Richard Alan Miller, Ph. D. - What about all the stuff coming out about Planet X's

Dr. RAM has been following the recent release of info on various large bodies being discovered in our solar system. He asked a friend (at JPL) to look into some things (see link) and has a loose mathematical theory on calculating the closest approach based on the shape and length of the orbits.

Also, in light of last weeks show with Terra;I on The Black Star, I will get Richard's take on the various Planet X's floating around the Internet.

02-16-16 - Lots of positive comments on your video on my YouTube channel. You should have a peek:

https://www.youtube.com/playlist?list=PL_JFPZnVqJe4vTZ6gNP2FY84YI2JVIV6

I, myself, was moved to post this, joining in on the fun:

After my complimenting him on air, Richard Alan Miller, embarrassed, groped for some phrase to describe himself. He came back with some variant on "idiot savant". That says allot for his character and the state of his ego. He knows he has a brilliant intellect. Yet he is aware, with personal regret, of his limitations. That is a VERY rare trait amongst the arrogant intellectuals, so full of themselves they cannot see the forest of their flaws thought the trees of self-aggrandizement.

He has a grounding to facts and figgers, yet, will take a leap outside of a current understanding and see if there are any better ways to explain the universe. He will not rule out anything until it is ruled out by it's relationship with the evidence observed. Even then, he allows space for the evidence yet to be observed to be taken into account, should it be so. This to stands in contrast to both the Believer and the Skeptic whose own paradigm is their worst enemy in the search for truth.

He has the eyes of a child wondering at the universe, the mind of a physicist probing its structure and the heart of compassion to help people grow. He has an amazing amount of knowledge, yet realizes that wisdom and compassion are the tapering and inspirational keys to it's proper application. The joy of existence radiates from him.

If I had to pick one man to be marooned on a island with, I cannot think of anyone else I would choose, other then Richard Alan Miller. Tarotically speaking, he is The Sage, The Magician, The Tower and The Fool. - James Arthur Jancik

03-02-16 – **Dr. Richard Alan Miller | Intuition, Stargates, Moon Pot | EODR 87** - This episode we are joined by the legendary Dr. Richard Allen Miller who has lived a long life and participated in things that most people do not even know exist. Dr. Miller talks to us about what it was like working alongside Timothy Leary during the 60's acid days. He then tells us about the type of training he was giving Navy Seals and how he was teaching them to listen to their intuition in order to survive. We move on to discussing the higher self and how we actually engage in a type of time travel when we learn to live our lives with grace.

We ask him about such things as the end of days, star gates, money and much more. Dr. Miller informs us that he can indeed still get it up at such a ripe age which earns our approval.

08-03-16 – 07-30-14 - Richard Alan Miller - How To Prepare For The Illuminati's Coming Dollar Collapse

What's happening on a political and financial level in the U.S. and around the world is hardly a new phenomenon. In fact for centuries there has existed a rather clear pattern that once the governments start spending wildly outside of their means, they then begin to clamp down and try other methods of shaking down their constituents and coming up with more money, power, and control. But what if you could become your own government and internal sovereign state and leave all of it behind?

On today's Radio Arcadia podcast we had special guest Dr. Richard Allen Miller, who let's just say has seen a thing or two that the average person doesn't ever get access to. Dr. Miller is a quantum physicist, and basically an all-around genius as well as one of the smartest people I've ever met, and in addition to being called on by the Navy to train the Seals to become super soldiers who tap into some paranormal decision making skills in order to keep themselves alive, he's also one of the main figures that the show the X-Files was based on.

So in today's interview we took a break from looking at some of the financial and Wall Street related issues to discuss some of the social and sovereign aspects of being prepared for life after the dollar and whatever changes that might bring. In particular Dr. Miller talked a lot about the importance of having a good and reliable water source, as while there are a lot of things you can survive without, water just isn't one of them.

However like just about anything else that we've studied or tried to figure out in life, once you start thinking about what changes are coming and how you might want to respond, the solutions begin to appear. Fortunately you don't have to solve everything overnight, and even if it doesn't always seem like it, you're probably a lot further along than you might even realize.

Dr. Miller also discussed some of the ways in which we can also prepare ourselves for anything that comes our way, as believe it or not, a lot of the methods he used to train the Navy Seals are based on meditation and breathing techniques that many around the world have been studying and implementing. Given that he also is familiar with and has seen inside of some of the government mind control programs, it was simply stunning to get inside his body of knowledge and hear how he responds to all of the nefarious government programs that have been making life more difficult for citizens around the globe.

It's going to be fascinating to see how life unfolds whenever the governments begin to run out of money and collapses. It's hard to see how life won't change drastically in many ways, but the encouraging news that Dr. Miller explains is that when we follow our intuition and have a positive intention, things really do have a way of working themselves out. So when in doubt, if

something feels right, it's probably best to keep going, but rather than taking my opinion for it, go ahead and enjoy this amazing interview with the great Dr. Richard Alan Miller so that you can begin turning yourself into your own sovereign nation and leave the government busy bodies behind.

08-08-16 - **Doc RAM, Nibiru, Time Travel, Binary Solar System, Magick, Mystery Schools, Intelligence Agencies** – Time Travel, How to talk with your future self, What does Magick, Physics, Mystery Schools and Alphabet agencies have in common. Zero Point Energy. Doc Ram says almost all solar systems are Binary with a blackhole in the center that leads to a white hole in another galaxy. Doc Ram also describes the creation of time cavitation & super cavitation in such an eloquent and fluid manner almost anyone can understand.

Dr Richard Allan Miller then brings up Nibiru and why it is so difficult to pick up with a traditional telescope and is , because it has a unique infrared signature that isn't correct.

He also claims the poles and earth have shifted and we are living in the hottest times on Earth on record reaching 164' heat index in Iran last year. What does NASA and other institutions see on the horizon for earth in the next couple years with the geographical changes and severe weather patterns?

Wait until you hear the hypothesis Doc Ram has about Nibiru, this might blow your mind.

How about the RH - blood factor? Could ET be hiding in plain site?

Is there a War going on inside each of us at the molecular level?

What are our options at Physical Death? Would you follow the light tunnel or go into the light?

What is synchronicity? What is the Afterlife? Is Magick with a K real, not just stage magic? What is Magick? How does one become a true Magi? Is Magick Evil, or is it the intent of those casting the energetic forces?

Hermetics, what is real what is illusion, his answer might shock you.

11- 16 – James Jancik - Dr. Richard Alan Miller, PH.D. - Call for help

I received this eMail from Richard asking for help. He is under attack and reaching out to radio audiences.

"I am under serious attack, and not sure why or whom? it is coming from all fronts, especially my websites and book sales. something VERY strange has happened to me.... my site was hacked and down for almost 8 days. thanks to Ed Marvinney, it is now back up and running. but.... i have not had a book order for ten days. "to make things worse, Amazon (normally double in sales) has also not shown a single order for the same period. when called , they say everything is working fine. i have received orders daily from Amazon for six year, until now, and now nothing... this is my only source for incomes, and have no reserves. now not sure what to do. to make matters worse, the Encyclopedia of Alternative Agriculture is now out in e-book format = and yet, have not sold one single copy - how does that work? any ideas or direction to go would be most helpful right now. this has stopped my ability to write, and am facing deep depression. not sure what to do at this moment. suggestions are welcome. by the way, Ed says the reason my site went down was that i was receiving more than 5,000 views per day - again, with no sales or supporting e-mail.

"I need to do some immediate radio to help get me out of the mess i currently find myself... i am under serious attack, and not sure who or why. it may be from the discovery i made . There is now at least 2 D-Wave AIs now running themselves (no handlers) - this has implications beyond the BS of politics and world "situations."

<https://www.youtube.com/watch?v=ureSv6-y-gc&feature=youtu.be>

-
- Galactic Connection
- Published on May 6, 2017
- Dr. Richard Alan Miller is Alexandra's guest for this fascinating, quick-moving, often humorous conversation covering a world of topics that span the interests of this brilliant man. A whiz kid recognized in the 1960's by "Old Man Dupont", Richard is today, at 73, an effervescent personality with a cutting-edge mind who remains among the world's leading experts in a half dozen different fields.
-
- Especially the fields of the paranormal, new age physics, and alternative agriculture interest him today. He also has written extensively on our "holographic" realities and altered states of consciousness, and often contributes articles to Nexus magazine. The interview moves quickly, as does Miller's mind, and his tales from the annals of parapsychology, military intelligence, and alternative culture are riveting.
-
- Richard started early. In the 1960's he dropped acid as part of Timothy Leary's experiments at Harvard, hung out with Ken Kesey during the Merry Prankster days and peered in on John Lilly's pioneering research on dolphins. He spent years in black ops programs, especially Navy Intelligence, where he worked in "X-files" classified areas. He has taught magic to Navy Seals and metaphysics at Harvard. His own pioneering work on 'holographic' realities never made it into the groundbreaking treatment by Michael Talbot because of its classified nature, but few theorists have explored the full ramifications of the fact that our imagination creates our reality like Richard Alan Miller. His research on the extraordinary properties of "Fullerene water", water containing "buckyballs" of carbon (C60 or C120) also is given a fascinating treatment in this interview. His stories are unforgettable, and his insights into the nexus of science, magic, and spirituality are highly illuminating.
-
- Among other topics of Richard's conversation with Alexandra are his background in the martial arts, the 'enteric nervous system', Morgellons, humanity's multi-dimensionality, Nephilim, drugs used for altered states, magic, bartering as an ideal system of exchange, crystals, how the layout of cities affects the jazz played there, and our human existence as "habitat". Along the way, Richard defines God as "that which cannot be known, but only experienced."
-
- Alexandra and Dr. Richard Alan Miller have set their sights on a second interview, possibly in person, at his home. This will focus on his recent book, Power Tools For The 21st Century.

06-14-17 - **Dr. Richard Alan Miller, experience about Antarctica and higher consciousness -**

In this interview of Dr Richard Alan Miller, Sebastien Martin brings a new witness to the events occurring at present in Antarctica for the Open Timelines program. In this wide range interview, we are covering many topics to do with mysticism, higher levels of consciousness, timelines, the Nazi base in Antarctica as well as some Viking artifacts from the 7th Century and much more.

As a graduate physicist, Dr Miller is involved in the fields of parapsychology and metaphysics, working 11 years with Navy Intelligence.

He is a Swiss mason and also belongs to other lodges, so hidden secrets in sacred texts and others are being discussed.

As a prolific author, he has written many papers and books, including The Modern Alchemist, ESP Induction Through Forms of Self-Hypnosis, as well as providing audio tapes on metaphysics workshops and writes for Nexus Magazine.

Michael Welcomes Dr. Richard Alan Miller to the program. Dr. Richard Alan Miller is a pioneer in the annals of metaphysical and paranormal exploration. Miller began working in the "X-Files" world of Navy Intel (Seal Corp. and then MRU) in the late 60s. His public collaborations and research continue. As an original black ops team-member, Miller's research in the field of paranormal began as a graduate physicist working 11 years with Navy Intel. During this period numerous foundational papers, including "A Holographic Concept of Reality" and "Embryonic Holography" were written. His past and current writings and presentations reveal a depth of knowledge and practical experience in three major fields; Alternative Agriculture, New Age Physics, and Metaphysics. He is re-emerging at a critical time in humanities evolution where metaphysics and practical survival converge.

Richard begins by telling us the latest, on his website being attacked repeatedly, conflict with amazon distributing his book. Dr. Richard Allan Miller says "we are all being manipulated". Dr. Miller takes the conversation into Metaphysics and artificial intelligence.

The Harvard Psilocybin Project was a series of experiments in psychology conducted by Dr. Timothy Leary and Dr. Richard Alpert. The founding board of the project consisted of Leary, Aldous Huxley, David McClelland (Leary's superior at Harvard University), Frank Barron, Ralph Metzner, and two graduate students who were working on a project with mescaline.

Dr. Richard Allan Miller discusses his experience and interaction with Timothy Leary, & Dr. John Lilly. In the 1960s neuroscientist John Lilly hoped to teach dolphins to speak English. Some of the funding for Lilly's research came from NASA. Through the 1950s and 60s the agency, and radio astronomers in general, took increasingly seriously the possibility that there were other technological civilizations in our galaxy. If Lilly could establish communication with another animal species on Earth, lessons from his work might help humanity understand radio messages from extraterrestrial intelligent life. Carl Sagan also took part in the experiments and consulted Dr. Richard Alan Miller to determine if the dolphins were actually communicating.

The conversation turns to quantum consciousness & Free Will. Richard believes in True Will, Richard also wrote a book on psilocybin mushrooms & dimethyltryptamine, Richard takes us

into the world of psychedelics, and can Psychedelic Drugs Treat Mental Illness and PTSD? Richard explains his understanding of what the purpose of psychedelics are for.

Richard believes this is not the country he served and protected anymore. Dr. Richard Miller weighs in on the situation going on in his home state of Oregon. He believes these are all false flags; he goes into Judy wood's research on energy beams and 9/11. No one is coming clean, Richard mentions the main stream media. He thinks it's all staged and none of it is real.

Did the government fund research into growing cannabis in outer space? High Times Magazine interviewed Dr. Richard Allan miller on Lunar Base Alpha One. This was an astonishing project, Dr. Richard allan Miler made many discoveries, He shocked the plant white. None of the growers today understand any of the methods that Mr. Miller used, Lots of seed banks exist today. Michael Mentions Marc emery, Marc Emery, Canada's Prince of Pot, and his wife, Jodie, have each been released on \$30,000 bail after being charged in Toronto with drug trafficking, conspiracy and possession and at least one of their raided marijuana shops has already reopened for business.

Conversation turns to the paranormal & the afterlife. Richard explains what happens the moment of death, Richard says you are given the choice.

Another amazing journey with Dr. Richard Alan Miller! This time we dive into the quantum physics that is the mycorrhizal universe right beneath our feet.

Dr. Miller and Thrice work hard to stay focused on agriculture-based topics, but the reality of the vast complexities that soil and life forms on this planet exist within can be a very deep rabbit hole to venture into. Especially when talking to an agricultural specialist that is also a physicist.

Join us on a mind-bending interview that can open doorways only into a deeper understanding of basic sustainable farming practices, but also how we as humans fit into a complex universal dance that is called quantum mechanics.

Everyday nature and humans are working in a symbiotic fashion whether we want to believe it or not. Agriculture is an essential tool for us to care for the planet and our selves as well as providing a sustainable environment for all the plants and animals who may be living within the habitats that we are caring for a maintaining.
